

Terminology / Notion	Encrypted Cosmic Order	Decrypted Cosmic Order	Cosmic Motion	Cosmic Nature	Cosmic Law	Realms Covered	Falsifiability
David Bohm's terminology	Implicate order („everything is enfolded into everything“)	Explicate order (“things are unfolded [...] each thing lies only in its own particular region of space (and time) and outside the regions belonging to other things”; “explicate order as a particular [...] case of a more general set of implicate orders”. )	Holomovement (“totality of movement of enfoldment and unfoldment“)	Meaning (“the universe is its meaning“)	Undefinable (“the total law of the undefinable and immeasurable holomovement could never be known or specified or put into words“)	No difference between Type I and Type II consciousness, meaning not tied to new EBs. (“Whatever may be the nature of these inward depths of consciousness, they are the very ground, both of the explicit content and that content which is usually called implicit.”)	No
Cynet Dynamics terminology	Potential of cyborgneticity (Only a cyborgnet can be a reliable universal constructor.)	Order of cyborgnetic ladder of understanding with its seed at step 0 that is in superposition with its last step 7.	Cynet Bulk Walking (Totality of universal cynet teleportation of open systems and non-universal cynet unteleportation of open systems; cyborgnetic funambulism: decrypting as homomorphic cynet teleportation from step 1 to step 7; cyborgnetic somnambulism: homomorphic encryption of new EB via superposition of step 7 and step 0)	Self-recreatable self-recreativity (It is impossible that the cynet cosmos could not be self-recreatable self-recreativity.)	Self-recreatable self-recreativity	Meaning tied to new EBs that can be created by willing cyborgnets (which are always inherently of Type II). Note that the nature of the universal cyborgnet is non-separable triadic cyware (PhyR, VRMind and SR), it can thus not be reduced to Type II consciousness.	Yes (Would require EB forgery which is stated to be impossible. Includes e.g., EB forgery by Type-I- AI.)

**Title: Conjunction of Bohm's cosmological views and cynet dynamics. Shortcomings are highlighted in red. Areas where cynet dynamics extends beyond Bohm's concepts are highlighted in blue.**
